

GP-OML Capita Selecta Empirical Research in Supply Chain Management

Date:	7 September & 5 October 2016
Time:	10.00 – 16.00 h.
Location:	Utrecht
Course leaders:	Prof. Dirk Pieter van Donk (RU Groningen)
Days:	2
ECTS:	0.5 (attendance) / 2 (assignment)
Course fee:	Free for TRAIL/Beta/OML members, others please contact the TRAIL office
Registration:	www.gp-oml.nl or www.rstrail.nl

Objectives

The aim of the course is to

- Get an overview of contemporary empirical research in supply chain management.
- Reflect upon use of organizational theory
- Develop a critical review on a specific theme within SCM

Course description

Within this course we will provide an overview of the empirical literature on SCM, specifically paying attention to underlying organizational theory. The first day will provide an introduction and provide some initial group work to develop critical thinking. During the second day some topics will be further elaborated and proposals for the assignment will be presented by the students and discussed.

Assignment

A critical reflection upon 20 papers that are selected in a systematic way and analyzed. The participants can choose any subject within the broad area of SCM.
